

# 2020 Safety Week - Work Smart & Stay Safe

## Across

3. I know it may be rough, if you don't want to waste time, it's best to rip me off.
6. I'll ease inflammation and pain, I'm one cool cat, simple and plain.
9. I see in darkness and in light. I can help guide your way or give you a fright.
10. I've been sharp my entire life, just carefree. Don't beat around the bush, cut straight with me.

## Down

1. Protect your peepers night and day. I may not be fashionable, but I'll never stray.

2. I was made to support you and that's a fact. No worries my friend, I'll always have your back.

4. The star of the show or maybe even a guide. All eyes on you, there's nowhere to hide.

5. Fill me with goodies for when you're in a jam. No booboo is too big, I'm here to lend a hand.

7. If you're blinded with fear, I'll always be here

8. I'll cover your digits keeping them safe and warm. Using me regularly should be the norm.
