

# 2D Shapes

## Across

2. How many edges does a hexagon have
4. Where two sides meet at a corner is the \_
7. A rectangle has \_ edges
8. A \_ has four equal sides
9. A \_ has 6 sides

10. This shape has no edges

## Down

1. The 'D' in 2D stands for
3. How many vertices does a triangle have
5. A line that connects two vertices
6. A 2D shape is a \_ shape
