

ARDS

Across

2. Scarring of lung tissue

6. Lack of ventilation in perfused alveoli

9. Mechanism of artificial respiration

10. Shortness of breath

11. The ability of the lungs to stretch and expand in response to increasing pressure

12. Osmotic ability of a membrane

13. Deprivation of oxygen

Down

1. A substance which creates surface tension within the alveoli

3. Life threatening organ dysfunction in response to infection

4. Fluid in the alveoli

5. Inflammation in the lungs secondary to infection

7. Collapse of the alveoli

8. Membrane oxygenator for critical cardiac or respiratory failure
