

A World Without Fish

Across

- 6. A rise of two degrees would mean that polar bear ice caps would melt and overflow ...
- 7. what do fishermen need to know about fish in order to catch them
- 8. what did they do to the holes so fish could go through(the made them....)
- 10. So many of the problems of modern fishing were created by the development of equipment that was just too

Down

- 1. it the bluefin tuna died off then what would also die off like lots of other fish
- 2. .what is the type of animal that will survive if all the fish disappeared that is not plankton
- 3. what would be the simplest way to get all the fish back would to stop all ...
- 4. what did the fishermen always have an impact on in the sea
- 5. Scientists and fishermen have long battled over
- 9. Most of the fish we eat could be gone in the next who many years
