

Aerobic Respiration

Across

3. Which stage of Aerobic Respiration occurs in the cytoplasm?
4. Aerobic means what?
7. The other location where Aerobic Respiration occurs
9. The opposite of Aerobic Respiration
10. This assignment is about what type of respiration?

Down

1. What breaks down during Aerobic Respiration?
2. Known as the "powerhouse" of the cell. One of the locations where Aerobic Respiration takes place
5. During Glycolysis, a 6-carbon glucose molecule is converted into two 3-carbon molecules of what?
6. How many stages of Aerobic Respiration are there?
8. This is the energy that is created through Aerobic Respiration
11. Aerobic Respiration is a method used to generate what?
