

Algebra 1

Across

- 1. $a(b+c)=ab+ac$ name the property
- 4. The upper half of a fraction
- 8. The answer to an addition problem
- 10. A number that can be represented by a non-repeating, non-terminating decimal
- 12. $a+b+c=a+c+b$ name the property
- 15. An integer that divides another integer with no remainder

- 16. This is the number in front of the variables in a term
- 17. Terms with the same variables raised to the same exponent

Down

- 2. A mathematical sentence with an equal sign
- 3. A term with no variable
- 5. $(a+b)+c=a+(b+c)$ name the property
- 6. An equation written with one or more variables where the exponent of the variable is one

- 7. A letter that represents one or more numbers
- 9. A whole number greater than or equal to 2 that has exactly two positive factors, 1 and itself
- 11. The products of this number and any non-zero number
- 13. The answer to a multiplication problem
- 14. The set of whole numbers and their opposites
