

Algebra is Fun!

Across

2. A polynomial with only one term
5. To reduce or put in simplest terms
6. A math statement that only contains numbers, variables, and operations
7. A fixed, non-varying number

9. A polynomial where the highest exponent of the variable is 2
11. Shown as a superscript to the right of the base
12. A quantity which can vary in value

Down

1. The 4 in $4xy$

3. The default operation in algebra
4. A mathematical expression consisting of variables and coefficients
8. A polynomial with two terms
10. The use of symbols to solve an equation
