

Animal Cell CW

Across

4. A small dense spherical structure in a nucleus of a cell during interphase
5. They keep the airways clear of mucus and dirt
6. A complex of vesicles and folded membranes within the cytoplasm of most eukaryotic cells
7. An organelle found in both animal cells and plant cells
9. Material/Protoplasm within a living cell

10. Is found throughout the cell but the density is higher near the nucleus and golgi apparatus

Down

1. Relating to the nucleus of an atom
2. Substance of a cell nucleus
3. Bind RNA transfer RNA to synthesize polypeptides and proteins
8. Protects the cell from its surroundings
