

# Animal VS Plant Cells

**Across**

- 2. a rigid layer around the cell membrane in plant cells
- 7. Plants need \_\_\_ for energy
- 8. used for energy in a plant cell
- 10. the cell wall helps create a \_\_\_\_\_ shape

**Down**

- 1. organelles that are used for movement in animal cells

- 3. The control center of all cells
- 4. digestive enzymes mostly found in animal cells
- 5. organelles that make proteins in both cells
- 6. Animal cells have many \_\_\_\_\_ vacuoles
- 9. where is the nucleus in an animal cell
