

Approach to CAT instruction

Across

4. An activity of explaining concepts
 6. orderly process of face-to-face group interaction
 8. Showing learners how, what and when to do a task
 9. technique used to carry out a teaching strategy
 10. Summarizing previously taught lessons
 11. learning content should be presented in real-life and meaningful contexts that bring the real world into the classroom.

12. An example of problem based learning
 13. One of important elements of constructivist approach
 14. Teachers helping learners set goals, ask questions, encourage discussions and provide problem-solving models.

Down

1. students given opportunities to solve issues by using their knowledge in a systematic problem-solving process.
 2. learners being given a chance to apply new knowledge, skills and values

3. The teacher delivers structured lesson content while maintaining control over what, when, and how students learn.
 5. According to this approach, knowledge cannot simply be transmitted by a teacher or an instructional system to students
 7. Assessing the learners' understanding of new concepts
