

Are you smarter than a graphic designer?

Across

- 1.** A gradual change in color from one tone into another
- 6.** The study of how colors make people feel and respond
- 7.** a 3×3 grid lying on top of your image and then aligning the subject of the image with the guide lines and their intersection points
- 10.** what is the term used to explain the adjustment of space between two characters in your type?
- 11.** the colour model for printing purposes

Down

- 2.** A professionally shot photograph available online for licensing
- 3.** The process of cutting areas of your printed design in various shapes to create unique effects
- 4.** what are the first two words of filler text?
- 5.** what is the forbidden font?
- 8.** the colour model for digital purposes
- 9.** The degree of transparency an element has
