

Name: _____ Date: _____ Period: _____

BIO CROSS-WORD PUZZLE

Across

2. Written or printed representation of something
5. Minute particle consisting of RNA and associated proteins
7. form of RNA where genetic info is transcribed from DNA
8. 3 nucleotides that together form a unit of DNA and RNA
11. Pair of double stranded nucleic acid molecules

12. Action of copying something

13. Any of a class of nitrogenous organic compounds that consists of one or more long chains of amino acids

Down

1. RNA consisting of folded molecules that transport amino acids
3. Nucleic acid present in all living organisms

4. Distinct sequence of nucleotides forming part of a chromosome

6. Process of moving one thing to another

9. Self replicating material present in every living organism

10. simple organic compound consisting of (COOH) and (NH₂)

Word Bank

ribosome	messenger rna	amino acid	transfer rna	base pair
codon	dna	transcription	gene	replication
translation	protein	rna
