

Basic Circle Vocabulary

Across

2. An angle whose vertex is ON the circle
 4. The distance around the circle
 8. The set of all points equidistant from a single point
 10. The segment from a point on the circle to the center

11. Circles that have the same center but different radii

15. "the crust of the pizza"

Down

1. A polygon whose vertices ALL lie ON the circle
 3. A special chord that goes through the center of the circle
 5. An angle whose vertex is outside of the circle

6. An angle whose vertex is on the center of the circle

7. An arc formed by a diameter of the circle

9. "the whole slice of pizza"

12. A line that intersects the circle in 1 point

13. A segment whose endpoints are on the circle

14. A line that intersects the circle in 2 points
