

Name: \_\_\_\_\_

Date: \_\_\_\_\_

# Biochem puzzle 3

## Across

- 2. A ribozyme containing protein and RNA
- 8. Therapy of Wilson's Disease
- 9. \_\_\_\_\_ staining can detect DNA in tissues
- 10. \_\_\_\_\_ synthetic disaccharide is made of galactose+fructose

## Down

- 1. A transport protein
- 3. It regulates the plasma levels of calcium and phosphates
- 4. Diagnostic enzyme of urine
- 5. Metalloenzymes having molybdenum centre
- 6. Used for treatment of gout
- 7. \_\_\_\_\_ is the basic unit of protein structure+function
