

Name: _____

Date: _____

Biochemistry

Across

- 3. This macromolecule is used as an energy source
- 4. The valence for carbon
- 7. This macromolecule is made of amino acids
- 8. This macromolecule makes up the bulk of your cell membrane
- 9. This element is building block of like

- 10. This process breaks macromolecules

Down

- 1. This process is used to make macromolecules
- 2. This is removed after two monomers are linked together
- 5. This macromolecule stores your hereditary information
- 6. The single subunit in macromolecules

Word Bank

hydrolysis
four
carbon
lipids

nucleic acid
water
carbohydrate

protein
monomer
dehydration synthesis
