# Biology Matching

1. Eats meat
  2. Feeds on the remains of animals
  3. animal that feeds on dead organic material
  4. shows biomass at each trophic level
  5. Energy flow through living things
  6. To provide the ability to work
  7. Series of organisms dependent on each other
  8. Series of organisms within an ecosystem
  9. Eats plant
  10. species that other species in an ecosystem depend on
  11. Eats both meat and plants
  12. Animal that preys on others
  13. Shows flow of energy from one trophic flow to another along a food chain
- A. Ecological pyramid
  - B. Keystone Species
  - C. Food Chain
  - D. Energy Ecosystem
  - E. Energy
  - F. Pyramid of Energy Flow
  - G. Decomposer
  - H. Carnivores
  - I. Predator
  - J. Omnivore
  - K. Herbivores
  - L. Food Web
  - M. Detritvore
