

# Biology Sem Exam Vocab Review 2

## Across

1. magnifies slide; directly above stage  
 5. backbone of microscope  
 10. chromatids are pulled to poles  
 11. sturdiest portion of microscope  
 12. nuclear membrane breaks down

14. tetrads line up along midline  
 16. used to move stage and focus on low  
 17. magnifies 10X; look through  
 18. used to focus on high

## Down

2. chromosomes separate at the centromere  
 3. spindle fibers form again

4. chromosomes line up in middle  
 6. where slide is placed  
 7. 1st cytokinesis  
 8. illuminates slide  
 9. DNA uncoils and loosens up  
 13. DNA coils into chromosomes and match up  
 15. copied DNA coils into chromosomes
