

# Biology

## Across

2. What's dose guanine pair with?  
 8. Can there be more than one codon for each amino acid? (yes/no)  
 9. What's the codon for Tryptophan?  
 10. Can their be more than one amino acid for each codon ? (Yes/No)

12. What's the amino acid for? (CUG)  
 14. What dose DNA stand for?  
 15. DNA uses mRNA to ...?  
 16. What's is a gene for?

## Down

1. CUA amino acid is ?  
 3. What's the amino acid for? (AUG)

4. all things related to DNA ends in « ine » (yes/no)  
 5. What's that the term called when the mitosis splits?  
 6. where is DNA located?  
 7. What's the amino acid for? (CGG)  
 11. UAA amino acid is ?  
 13. A DNA lines can split in two (yes/no)
