

Name: _____

Date: _____

Biology

Across

2. Holds water in plant cells

9. Packages and releases proteins or lipids

10. Another form of DNA

11. Information center in cell

12. Makes the plant green

13. Produce energy throughout cellular respiration

Down

1. Creates lipids

3. Inside of Nucleus

4. Main function is to transport and store

5. Surrounds plant cells but not animal cells

6. Supports structure in cell

7. Fills the cell

8. Create proteins
