

Name: _____

Date: _____

Biomolecules Vocab

Across

- 5. A molecule that bonds with another of the same molecule
- 7. The Monomer of Nucleic Acids
- 8. Also known as Simple Sugar, Found in Carbohydrates
- 10. Monomer- Fatty Acids and Glycerol

Down

- 1. Created when Monomers bond together
- 2. Found in bread, pasta, and acts as a quick source of energy
- 3. The Monomer of Carbohydrates
- 4. The main building block in Protein
- 6. Helps build muscle and is found in lean meat
- 9. Makes up DNA in all living things

Word Bank

Nucleic Acids
Polymer
Simple Sugar

Amino Acids
Monomer
Lipids

Monosaccharide
Nucleotides
Carbohydrates
Protein
