# Birth Control Methods

## **Across**

**3.** Put this inside the vagina before sex. Covers the cervix and contains spermicide to prevent pregnancy.

**6.** You wear this on the skin of your belly, upper arm, butt, or back.

**7.** Long-term device put into your uterus.

**8.** Bendable cup put into the vagina that covers the cervix.

**12.** Uses chemicals to stop sperm from reaching the egg.

**13.** Tiny, thin rod. Doctors insert this into your arm.

## **Down**

**1.** Injection you get from a professional once within every 3 weeks.

**2.** Put this deep inside the vagina before sex. Covers the cervix. Made from soft silicone.

**4.** Stretchy pouches you wear over your penis during sex.

**5.** Small, flexible ring you wear inside your vagina.

**9.** Method you swallow.

**10.** The surgical cutting and sealing of part of each vas deferens.

**11.** Surgical procedure that permanently prevents one from reproducing.
