

Bomb

Across

- 2.** The man who confessed to the FBI 17 years after the project/war had started
- 4.** The substance that was first discovered to be able to have it's atoms split
- 9.** A "very shy, and very brilliant" scientist who played a huge part in the making of the bomb

- 11.** The town where scientists came together to work on the bomb
- 12.** The nickname for the woman that directed scientists from Santa Fe to Los Alamos

Down

- 1.** The code name for the bomb project
- 3.** The built up energy of the splitting atoms
- 5.** The guy who got Robert Oppenheimer first involved in the project

- 6.** Oppenheimer's code name that he told Dorothy
- 7.** The code name for the bomb
- 8.** The group of people that investigate suspicious behavior
- 10.** The liquid that the Germans were using to try to crack the bomb sooner
