

Budget Vocabulary

Across

4. Initial money in the account (spelled like the way from the video-not the white worksheet)

5. The form you fill out when you get a new job that tells the government how much taxes you want taken out

6. How much money actually ends up in your bank account.

7. Total amount your employer is paying you before deductions and taxes

8. Bills that change based off how much you use the resource -- like an electric bill

10. Money that is taken from your gross pay because of taxes or other benefits: Payroll

Down

1. Fees place on stuff you buy by the US government.

2. Money collected from paychecks by the state to pay for programs like education.

3. Bills that stay the same from month to month no matter how much it is used -- like your car loan.

9. Your plan for how you think your money will be spent
