

C4L1 Foundations & Genetics

Across

- 4. the study of how traits of organisms are passed from parents to offspring
- 5. each form of a different gene
- 9. two alleles are different
- 10. the specific alleles on chromosomes

Down

- 1. two alleles are the same

- 2. the allele is blocked by the presence of a dominant allele
- 3. section of a chromosome that carries a specific code for a trait
- 6. the observable traits and characteristics of an organism
- 7. the passing of traits from parents to offspring
- 8. the trait always shows of when the allele is present
