# CAD + Press Forming

1. printing method to transfer ink with heat
  2. CAD program for creating your image
  3. plastic sheet used to protect heatpress
  4. CAM machine used to cut plastic squares
  5. Short cut to move image
  6. Short cut to copy image
  7. Short cut to select All
  8. Short cut to paste image
  9. File extensions to save images
  10. Used to shape plastic
  11. Type of thermoplastic used to make coaster
  12. Tool used to select an area of the same colour
  13. Computer Aided Design
  14. Computer Aided Manufacture
  15. Area of Technology
  16. Types of Formers
  17. Used to clamp moulds
  18. Helpful, friendly Technician
  19. Ink transfers at this temperature
  20. a material that reacts to an input to change it's property
- A. magic wand
  - B. Mr Karageorgi
  - C. laser cutter
  - D. Vice
  - E. 180 - 190
  - F. CTRL A
  - G. acrylic
  - H. CAM
  - I. CTRL T
  - J. sublimation
  - K. Male and Female
  - L. smart material
  - M. Press Forming moulds
  - N. Photoshop
  - O. CAD
  - P. CTRL V
  - Q. CTRL C
  - R. JPEG or PNG
  - S. silicon
  - T. Resistant Materials
