Date: _____

CHEMISTRY SEM 1 REVIEW VOCAB

Across

4. study of the composition of matter

6. numbered measurements

8. where the electrons are

11. definite shape and volume

14. representation

15. vibrations per unit of time

17. amount of space taken up

18. unit of light

19. no shape or volume

21. mass of 1 mole

23. gravitational pull on mass

24. substance that participates in a reaction

25. mass divided by volume

26. educated guess

Down

1. horizontal rows

2. explanation of phenomena

3. smallest unit of element

5. number of protons

7. definite volume/no shape

9. nonreactive elements

10. one point to identical point

12. same protons:different neutrons

13. SI unit for amount of substance

16. 2 or more elements chemically combined

20. any substance with defined composition

22. has mass and volume
