

# CPU architecture

**Across**

1. C in CPU denotes...?  
 7. CPU comprises of control unit, memory unit and \_\_\_\_\_.

9. This memory chips is programmed during the manufacturing process?

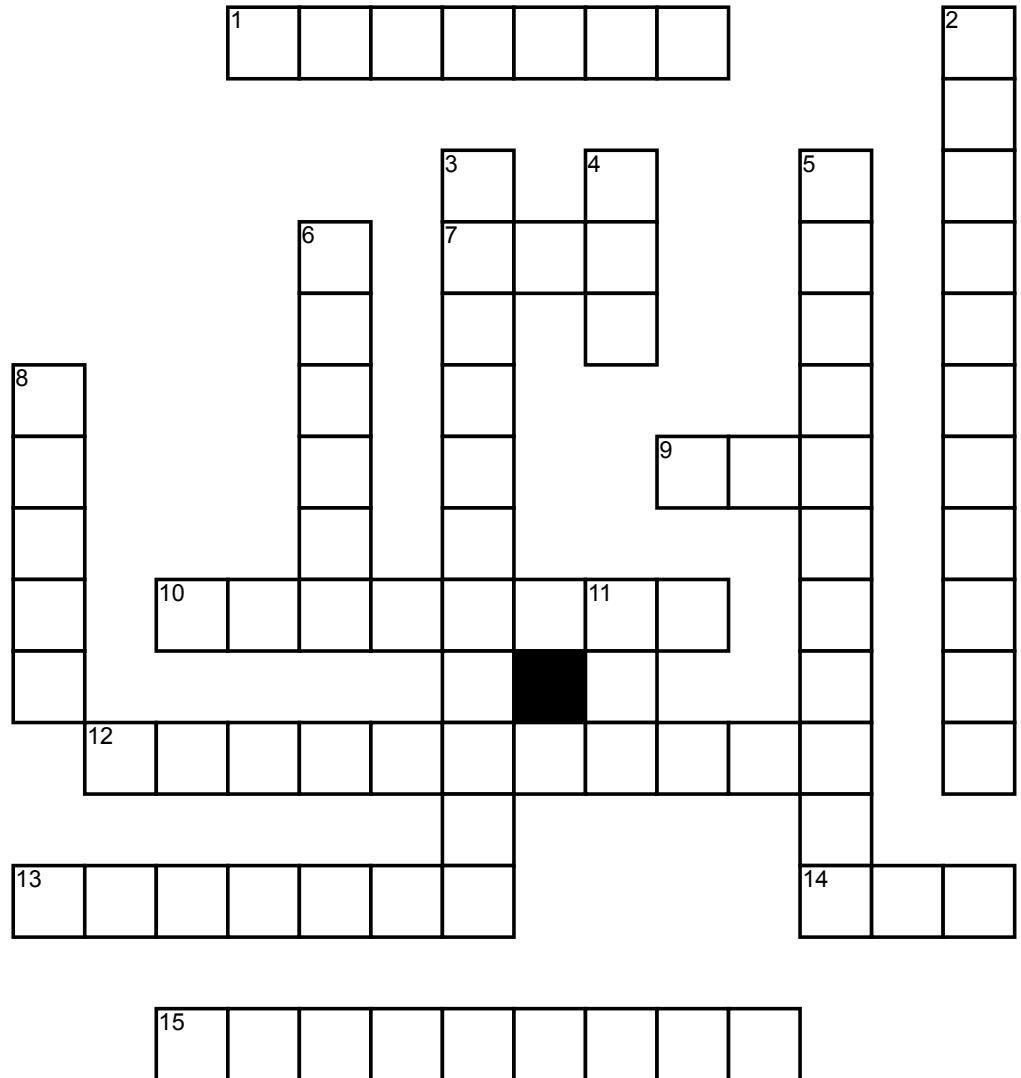

10. Pipeline strategy is called implement instruction

12. Which of the following controls the machine cycle?

13. WW. \_\_\_\_\_ is the process of carrying out commands.

14. Which computer memory is used for storing programs and data currently being processed by the CPU?

15. Internal memory in a CPU is nothing but ....

**Down**

2. A group of bits that tells the computer to perform a specific operation is known as  
 3. CPU can directly understand this language

4. The communication line between CPU memory and peripherals is called  
 5. The load instructions is mostly used to designate a transfer from memory to a processor register known as.....

6. The machine cycle includes  
 8. On the motherboard the connection points for chips are referred to as....  
 11. This component is required to process data into information and consist of integrated circuits
