

Name: _____

Date: _____

Carbohydrates

Across

- 2. a property of chitin
- 4. a three carbon sugar
- 10. bundles of cellulose chains form -
- 13. the monomers found in cellulose
- 14. a nitrogen containing polysaccharide

- 15. a molecule that has the same molecular formula but different structural formula

Down

- 1. a glycosidic bond is formed by a _____ reaction
- 3. a structural feature of glycogen
- 5. plant transport carbohydrate

- 6. a isomer of glucose
- 7. animal storage carbohydrate
- 8. a property of amylose
- 9. plant transport sugar
- 11. a non-reducing sugar
- 12. functional group found in glucose
