

Cardiovascular project

Across

- 4.** Tiny blood vessels
6. A network consisting of blood, blood vessels, and the heart
8. The blood vessels that deliver oxygen-rich blood from the heart to the tissue
9. The valve between the left ventricle and the aorta

- 10.** Acts as a holding chamber for blood returning from the lungs
11. The valve between the left atrium and the left ventricle
12. Receives deoxygenated blood from the right atrium
13. Body fluid that delivers nutrients and oxygen to the cells

- 2.** Prevents blood from flowing backward
3. The valve that lies between the right ventricle and the pulmonary artery
5. Located in the bottom left portion of the heart
7. Receives deoxygenated blood from the body

Down

- 1.** These carry blood toward the heart

Word Bank

Pulmonary valve
 Veins
 Mitral valve
 Aortic Valve

Arteries
 Tricuspid valve
 Right atrium

Right ventricle
 Circulatory system
 Capillaries

Blood
 Left atrium
 Left Ventricle
