

Name: _____

Date: _____

Cell Division

Across

3. When does cell grows, prepares for division, and divides into 2 new cells
7. As cytokinesis continues, the cell splits into 2.....
8. The cell makes an exact copy of the DNA in its nucleus in a process called...
9. When does cell's nucleus divides into 2 new nuclei
10. Is an energy-releasing process that does not require oxygen

Down

1. Is the process by which cells obtain energy from glucose
2. What is the first stage of the cell cycle?
4. A threadlike strand formed from a chromosome during the early stages of cell division
5. What allows organisms to grow and repair damaged structures ?
6. DNA and proteins form threadlike structure
