

Cell Division

Across

- 2. DNA winds into chromosomes to keep it organized
- 6. growth and preparation for mitosis
- 8. picture of chromosome pairs

9. DNA replicates (gets copied)

- 10. process of making normal body cells
- 11. cell starts to divide and looks like 2 new cells
- 12. chromosomes separate

Down

- 1. cell growth and organelles form
- 3. cell divides
- 4. cell grows
- 5. chromosomes line up in the middle
- 7. process of making sex cells
