

Cell Organelles

Across

- 1.** This fluid fills up most of the space in a cell
- 4.** A lash-like structure that allows the cell to move
- 6.** Modifies and refines proteins and lipids
- 9.** A single cell organism with no nucleus or membrane-bound organelles
- 10.** Cell structures that carry out certain functions

- 11.** Transports materials from one part of the cell to another
- 14.** This structure is only found on plant cells
- 16.** Cellular Respiration takes place in this organelle
- ## **Down**
- 2.** Proteins for cells are made from the...
- 3.** An organism with cells that contain a nucleus and membrane-bound organelles

- 5.** This organelle is usually found on the Endoplasmic
- 7.** Most autotrophic cells contain a...
- 8.** This part of the cell is allow certain things in and out of the cell
- 12.** The control center of the cell that also holds DNA
- 13.** The basic unit of all life
- 15.** An oar-like structure, similar to flagellum but moves the cell differently
