

Name: _____ Date: _____ Period: _____

Cell Theory, Organelles, and Macromolecules

- | | |
|--------------------------|----------------------------------|
| 1. Theodor Schwann | A. Discovered cells |
| 2. Rulldolf Virchow | B. Animals are made of cells |
| 3. Nucleus | C. Rigid layer- plant cells |
| 4. Chloroplasts | D. Use sunlight to create food |
| 5. Lipids | E. Control center of the cell |
| 6. Cytoplasm | F. Fats, oils, waxes |
| 7. Robert Hooke | G. Gel-like fluid |
| 8. Endoplasmic Reticulum | H. All cells come from cells |
| 9. Nucleic Acids | I. carries proteins through cell |
| 10. Matthias Schleiden | J. Plants are made of cells |
| 11. Cell Wall | K. instructions for cells |
