

Name: _____

Date: _____

Cells

Across

- 3. A thin membrane around the cytoplasm of a cell
- 5. An organelle containing enzymes responsible for producing energy
- 7. The protoplasm of a cell excluding the nucleus
- 10. Make proteins
- 12. A part of an organism consisting of an aggregate of cells having a similar structure and function
- 13. Small structures in the cytoplasm that do special jobs

- 14. Small membrane sacs that specialize in moving products into, out of, and within a cell
- 15. Having cells with 'good' or membrane-bound nuclei

Down

- 1. A net-like structure in the cytoplasm of animal cells
- 2. An internal membrane system in which components of cell membrane and some proteins are constructed
- 4. Plastid containing chlorophyll and other pigments

- 6. A part of the cell containing DNA and RNA and responsible for growth and reproduction

- 8. Having cells that lack membrane-bound nuclei
- 9. A thin membrane around the cytoplasm of a cell
- 11. A collection of tissues that carry out a specialized function of the body
