

Cells

Across

3. What organelle makes proteins

7. What type of cell does have a nucleus

10. What organelle provides structural support

11. What mean things does the nucleus contain

12. What type of cell has a cell wall

13. What type of cell is chloroplast in

Down

1. What packages things made by the cell

2. What type of cell does not have a nucleus

4. What organelle makes energy in the form of ATP

5. What are cells made of

6. What protects the cells and lets things in and out

8. What controls things in the cell

9. What organelle uses photosynthesis
