

# Cellular Respiration

## Across

2. How organisms obtain energy  
 3. gas produced from the break down of glucose  
 6. H<sub>2</sub>O  
 7. the energy currency of life.  
 9. where glucose broken down  
 10. organelle where cellular respiration takes place

11. without oxygen

## Down

1. Some \_\_\_\_\_ also undergo aerobic respiration.  
 4. gas needed for aerobic cellular respiration  
 5. with oxygen  
 8. molecule that is broke down through cellular respiration

## Word Bank

anaerobic	glucose	ATP	carbon dioxide
oxygen	Water	Cellular respiration	prokaryotes
mitochondria	Cytoplasm	Aerobic
