

Cervical, Thoracic and Lumbar Vessels

Across

5. What artery supplies blood to the brainstem and posterior parts of the brain?

6. What arteries branch from the internal thoracic artery?

12. A branch of the costocervical trunk that supplies the deep muscles and spinal cord in the neck region.

14. How many longitudinal aa supply the spinal chord?

15. In the pelvis, the spinal branches supplying the vertebrae branch from the lateral and medial sacral aa and the _____.

16. What vein drains the occipital region of the brain?

17. What branch of the thoracoacromial trunk peaks over the medial edge of the pectoralis minor muscle?

18. what is the main blood supply for the intrinsic mm of the back in the lumbar region?

19. What artery does the vertebral artery branch from?

20. A highly variable artery that often branches from the third part of the subclavian artery.

Down

1. What vein is located in the deltopectoral triangle and drains into the axillary vein?

2. What artery runs with the Axillary n through the quadrangular space?

3. What artery branches from the subclavian artery posterior to the anterior scalene muscle?

4. In the Thoracic region, what do the spinal branches supplying the vertebrae branch from?

7. This artery is located on the second part of the axillary artery and is on the lateral side of it.

8. In the Abdomen, what do the spinal branches supplying the vertebrae branch from? (write & symbol between the 2 aa)

9. What trunk is on the second part of the axillary artery and typically has four branches?

10. The spinal aa run longitudinally from the medulla of the brainstem to the _____.

11. What intercostal artery branches from the costocervical trunk?

13. What artery originates near the inferior border of the teres major muscle?
