

Chapter 7

Across

2. Largest circuitry board
 3. Fastest & most versatile PC connection
 10. Information highway
 11. Can store, retrieve & process
 12. Microprocessor, brain of computer
 13. Most common wired connection
 15. Made up of 8 bits
 16. Mouse & Modem connects to

17. Monitors, printers, speakers
 21. Controls the flicker
 23. Controls computer hardware
 25. Basic picture element

Down

1. Takes brunt of force during power surge
 4. I's & O's
 5. # of pixels on monitor
 6. Keyboard, mice, readers, microphones
 7. Printer connects to

8. Diagonal Measurement of monitor
 9. Connectors sticking out the back of PC
 14. Brings computer to life
 18. A driver that can read & write
 19. Measurement of how close dots are
 20. Grouping of red, blue & green dots
 22. Memory chip, retains info about PC's hardware
 24. Memory is temporary
