

Chapter 8

Across

4. reason backlog in labs, for one
 6. judged largely on technical capabilities
 9. Federal evidentiary rules
 10. study of physical evidence
 12. established in 1995
 15. third measure of crime lab effectiveness
 16. promotes high standards
 17. used in expediting DNA analysis
 22. houses dead bodies

23. scientific aid of criminal justice

24. may be found and collected almost everywhere
 25. primitive genetic coding
 26. analysis of volatile solids
 27. search under magnification

Down

1. examines numerical evidence
 2. sterile cotton used to collect DNA
 3. applied to answering legal questions
 5. molecules that carry body's genetic code

7. used for metals and elements

8. many seriously underfunded
 11. created in 1886 by congress
 13. established in 1932
 14. can be extracted from old samples
 18. evidence more than 30 days at lab
 19. looking for similar DNA profiles
 20. defacing governmental websites
 21. DNA database
