

# Classroom Objects

## Across

- 3.** Many of these are seen around the school advertising something or other: "Join Model UN!" "Be a Manleader!"
- 4.** A good one or a bad one could affect your GPA
- 5.** Hopefully you're writing these in your notebooks and not doodling
- 9.** A knight in shining armor is not complete without this animal

**10.** The famous pirate's companion

**11.** An outdated writing utensil frequently seen being used in old high school movies

**12.** Saying your dog ate this won't get you into Sra. Aikens' good graces

## Down

**1.** A noisier, more eco-friendly alternative to having your parents drop you off at school

**2.** Like a crab, but with a tail. A crab mermaid

**6.** Like a public school, but with more money and snobby kids in uniforms

**7.** You (should) organize your papers in this

**8.** Holds all of your school essentials and seems to get heavier with every stair you climb
