

# Climate Change Practice

**Across**

- 4. The difference between weather and climate is \_\_\_\_\_.
- 6. The greenhouse gas amounts to 0.4% of the atmosphere
- 7. In summer, the amount of Carbon Dioxide \_\_\_\_\_.
- 9. Climate is determined by precipitation and \_\_\_\_\_.
- 10. This greenhouse gas breaks down the ozone layer

**Down**

- 1. Because of \_\_\_\_\_, land plants act as a carbon sink.
- 2. These absorb energy and redirect it back to Earth
- 3. The largest producer of greenhouse emissions in the country is \_\_\_\_\_.
- 5. A carbon \_\_\_\_\_ stores carbon dioxide
- 8. A carbon \_\_\_\_\_ creates carbon dioxide
