

Name: _____

Cognition

Across

5. Doing something one way and if it does not end up working trying a different option until you find one that works
6. A methodical, logical rule or procedure that guarantees solving a particular problem
8. An early sample or release of a product built to test a concept or process
9. When a problem solver begins by imaging the end goal, then proceeded to determine the best way to go about the situation
10. Awareness and understanding of one's own thought process
11. A simple thinking strategy that often allows us to make judgements and solve problems efficiently

Down

1. Method of reasoning in which the premises are viewed as supplying strong evidence for the truth of the conclusion
2. logical argument that applies deductive reasoning to arrive at a conclusion based on two or more propositions that are asserted or assumed to be true
3. The process of understanding different points of views and coming to one conclusion
4. A sudden realization of a problem's solution; contrasts with strategy-based solutions
7. A mental grouping of similar objects, ideas, or people
