Color Theory

Across

4. Colors next to one another on the color wheel (ie. blue, purple, red OR red, orange, yellow)
6. colors directly across from each other on the color wheel, such as purple and yellow
9. Colors that are energetic, comforting and at the beginning of the rainbow (red, orange, yellow)
10. Synonym for color (means the same thing as color)

Down

1. Adding black to a color makes it darker, giving it a depth and richness
2. Colors that are calm and often tranquil, such as blue and green
3. Mixing two primary colors together, such as red and yellow to make orange
5. Adding white to a color makes it lighter/more pale and is called this
7. The first, original three colors that all others are made from by mixing together
8. Adding grey to a color tones it down, washes it out, makes it slightly dull and not as bright as the original hue
