

Digital Literacy

Across

1. When someone tries to get personal data online by pretending to be someone else.
3. Curated content
4. A fake screen name. Sometimes known as an "alt" account. Sometimes, these are used for cyber-bullying. Often, people figure out who is really behind these fake accounts.
6. When someone shares information on purpose and it becomes part of their digital footprint.
9. When you check and think about social media a lot.
17. Short for malicious software. It introduces damage or gains access to your computer. Once it has access, it can steal your information.
20. Someone who has the right to copy, publish, sell, or distribute a creative work.
21. begins with
22. A software application you download to your device (such as a smartphone or tablet). There are apps for social media, games, etc.
25. Specific times when copyrighted material can be used without permission (usually for research, reporting, or teaching).

26. Prejudice felt about certain things, people, or groups. Prejudice is an opinion that isn't based on reason or fact.

27. When someone gets access to a system and steals your data to use or sell.

28. A group of people with shared goals or interests, or who live or connect in the same place. A community can also be onli

29. Creative works that can be used by the public, but may have restrictions on how they are used.

30. When someone shares information on purpose and it becomes part of their digital footprint.

Down

2. Taking someone else's words or ideas and presenting them as your own.

5. Freedom of expression

7. When someone doesn't know their information was gathered and it becomes part of their digital footprint.

8. Your right to be part of a group and take action within that group.

10. Direct or first-hand stories that come from the time period when the event being discussed happened

11. When an app uses GPS to track where you are remotely. Some apps share your location through their site.

12. Places online where data can get stolen.

13. Bullying is unwanted, aggressive, and repeated actions (or actions that could be repeated). It happens when there's a power imbalance. That imbalance could be physical or social. It could also be real or imagined.

14. The scientific study of how the brain works.

15. When someone pretends to be you, by using your personal information.

16. A policy that companies share when you use their services.

18. Part of the visible light spectrum. Blue light from digital devices disrupts the hormones in your brain and can make it hard to sleep.

19. Image and information about you.

23. Cyberbullying is bullying that happens online. It's often in the form of harassing messages or posts. Sometimes those posts are anonymous.

24. People who gather and sell personal information that's shared online.
