

Name: _____

Do You Know Electric

Across

- 3. Flowing in one direction only
- 6. Standard unit of inductance
- 7. Standard unit of frequency
- 8. Opposing Force
- 11. Measure of reactive power
- 12. Concept of resistance to an ac circuit
- 13. Electricity goes somewhere
- 14. Designed to trip a circuit breaker

17. Energy measured in watts

- 19. Discharge brought on electrically from a fluid
- 20. Reverse its direction many times

Down

- 1. Test/Result
- 2. Flow of electric charge
- 4. Electrical Current increase Measure in Volts

5. Resulting from mechanical stress

- 9. Equivalent to one jolt per second
- 10. The standard units of capacity
- 15. Measure of resistance
- 16. Unit of measurement for electricity
- 18. Electric current attached to the Earth
