

# ECOTOURISM 1

## Across

2. Careful management of the environment and natural resources  
 5. A consumer that eats plants  
 6. Tourism to exotic or threatened ecosystems to observe wildlife or to help preserve nature  
 7. A region including the bottom of the sea and the littoral zones  
 10. Measure of population per unit area  
 11. Organisms that eat producers of other organisms for energy  
 14. Substances washed into water sources  
 22. Goddess of the earth and mother of Cronus and the Titans in ancient mythology  
 23. The property of a more than adequate quantity or supply  
 26. Part of the earth where life exists  
 28. The act of contending with others for rewards or resources  
 30. Of or relating to or formed by trees  
 32. Having lost all moisture  
 33. Dense vegetation consisting of stunted trees or bushes  
 36. A covering that shelters an area from the weather  
 38. Remove something that has been rejected  
 42. Being deficient in moisture  
 43. An organism's way of life

45. Capable of being prolonged  
 47. Organisms that gets energy by breaking down the remains of decaying organisms  
 48. Non-living factors in the environment  
 49. All of the populations of different species that live and interact in an area  
 50. A close, long term relationship between two or more species  
**Down**  
 1. The environment where an organism lives  
 3. Of or relating to or living in actively moving water  
 4. Feeding on dead animals  
 8. Be in charge of, act on, or dispose of  
 9. A community of organisms and their non-living environment  
 12. Make impure  
 13. A periodically repeated sequence of events  
 15. A system of interdependent food chains  
 16. An organism that feeds on another living creature, usually without killing it  
 17. Of or relating to nutrition or feeding  
 18. A consumer that eats a variety of organisms  
 19. Requiring a salt-rich environment for growth and survival  
 20. A colorless gas that is a screen for ultraviolet radiation  
 21. Capable of being decomposed

24. The action or process of taking over  
 25. Capable of being replaced  
 27. Organism that is hunted  
 29. The branch of biology that studies plants  
 31. Loss of soil to wind or water  
 34. Of or relating to or living in still waters  
 35. Wet spongy ground of decomposing vegetation  
 37. Organisms that produce their own food  
 39. A group of individuals of the same species  
 40. Use again after processing  
 41. The study of interaction between organisms and their environment  
 44. existing, living, or growing in the air  
 46. Major ecological community with distinct climate and flora
