

Earth Science Project

Across

- 4. Gas to liquid is what?
- 7. When liquid becomes water vapor that is called _____.
- 8. When water vapor in the air turns into liquid water it is called what?
- 10. When water pools in large bodies that is called _____.

Down

- 1. What has the most energy?

- 2. When water falls from clouds in the sky that is called _____.
- 3. The rain that flows in surface streams, rivers, or canals is called what?
- 5. Liquid to gas is what?
- 6. Molecules get energy from the _____.
- 9. What has the least energy?
