

Earthquake Magnitude Attitude

Across

- 4. A large wave that spends out from the earthquake's epicenter and rushes across the ocean.
- 11. The person who found out about continental drift
- 13. Life that live in a planet
- 14. what two sub-layers of the earth's crust
- 16. A deep sea that connect to land
- 17. Is a Vibration that moves out from the force in all directions.

- 18. What is cold rigid outermost rock layer
 - 19. A fold that bends upward in an arch.
 - 20. the two sub-layers of the earth's crust
- Down**
- 1. A kind of stress that pushes a mass of rock in two opposite directions.
 - 2. when to plates separates
 - 3. When Measure of an earthquake's strength based on seismic waves.
 - 5. The envelope gases that is surrounding the earth or planets

- 6. What is the transfer of heat through fluids
- 7. A place where formed by earthquake
- 8. large-scale processes affecting the structure of the earth's crust.
- 9. A walls formed by the downward displacement of a block of the earth's surface
- 10. One of three rating scales used to measure earthquakes.
- 12. A fold that bends downward in the middle to form a bowl.
- 15. Minerals that came from the volcano
