

Earth's system and interior

Across

- 3. Which force wears down or destroy landmasses?
- 6. What is the crust and uppermost mantle into a single layer?
- 11. Forces that construct or build up mountains
- 13. Which Earth's system contains living organisms?
- 14. What is a measurement of how much mass there is in a given volume of substance?
- 15. What is heat transferred between materials that are touching?

- 16. What's a layer of hot rock?
- 18. What's the soft layer?
- 19. What is a group that works together as a whole?
- 20. Which Earth's system contains all of Earth's water?

Down

- 1. What is the flow of transferred heat within a fluid ?
- 2. What is a dense ball of solid metal?
- 4. What is the transfer of energy that is carried in rays like light?

- 5. Which Earth system is a thin layer of glass that forms the outermost layer
- 7. When earthquakes occur , hat do they produce?
- 8. What does it mean to have the ability to do work?
- 9. What is the results from a force pressing on an area?
- 10. What is the layer of rocks that forms Earth's outer skin?
- 12. What is a layer of molted metal surrounding the inner core?
- 17. Which Earth's system contains Earth's layers?
