

Eclipses, the Universe, Galaxies and Solar Systems

Across

- 2. 760 miles per hour
- 4. The area in which the shadow of an object is total
- 7. The planet on which we live
- 9. 186,000 miles per second
- 12. The star in our solar system
- 13. No end to it. It includes everything,

14. Largest planet

- 16. A meteor that hits the earth

Down

- 1. The natural satellite of the earth
- 3. Jupiter, Saturn, Uranus and Neptune are the
- 5. Asteroid that enters the earth's atmosphere and burns up

6. Made of ice and has a tail

- 8. The center of a solar system
- 10. The area in which the shadow of an object is partial
- 11. Smallest planet, not Pluto
- 15. The four planets closest to the sun are made of
